LIMITED TIME OFFER

Walter PeakAir® PAPR Systems

Built for heavy-duty grinding and welding work where clean air and endurance matter most.

The PeakAir® PAPR system adapts to the job with four compatible headtop options, all powered by the same advanced PeakAir® blower to form a complete PAPR system.

PEAKAIR® BLOWER

- Optimized for high-altitude environments up to 8,500 ft
- Deliver NIOSH, ANSI & CSA compliant respiratory protection
- 5-setting airflow control, with a minimum flow of 170 LPM
- Audible, visual, and vibration alarms for low airflow, missing filter, or low battery voltage
- Up to 14 hours of runtime at minimum fan speed
- Flexible, quick-disconnect breathing tube designed to reduce neck strain and improve mobility

All systems are powered by the same PEAKAIR® blower
